# What's Missing?

## Objective:

To reinforce vocabulary through a memory game.

## Instructions:

Prepare a tray with a selection of Christmas-themed items. Allow the students to look at the items for a few seconds, then ask them to close their eyes while you remove one item from the tray. Ask the students, "What's missing?" Repeat the exercise, and to increase the difficulty, you can remove two items at a time.

If you have enough objects, this game can also be played in smaller groups, with one student in each group responsible for leading the game.

## Preparation:

Prepare a tray with a selection of Christmas-themed items, such as a Christmas decoration, a small Santa, or a Christmas present. You can also include everyday items like a pencil, a sweet, or an apple. Use around ten items.
