A perfect Christmas present!

Objective:

To practice speaking skills.

Instructions:

Divide the class into small groups of 3-5 students and give each group a set of pieces of paper with ideas for "perfect Christmas presents" (use the suggestions below or create your own). Place the pieces of paper face down.

Students take turns drawing a piece of paper and explaining why the gift listed is a perfect Christmas present and how they would use it. The gifts are a bit silly, so there are no correct answers – students should use their imagination.

The focus is on having fun and practicing speaking rather than on using perfect language.

Preparation:

- Print the list for each group on the next page.
